

EXERGEN
TemporalScanner™

Temporal Artery Instant Thermometry

Three good reasons for hospital wide use

1. Lowest Cost System

First thermometer to eliminate disposable covers
- use like a stethoscope

- Reduce thermometry cost by 90%
- Reduce associated waste by 90%
- Lifetime warranty

2. Highest Accuracy

More accurate than ear
- Harvard Medical School study

Accuracy Comparable to Rectal
- Multiple Hospital Studies

As accurate as a PA thermistor
- Massachusetts General Hospital
study

3. Most Liked by Patients

- Most comfortable thermometer
- Least invasive thermometer
- Home models available at retailers

NEW!
Silver Ion
Anti-Microbial
Probe Head

Instrumentation and Calibration

TAT-5000

Arterial Calibration
Order #124275.
Use with or without
disposable cover.

Calibration Verification Kit

Small, portable kit can be used
anywhere for routine quality assurance
programs. For all Exergen
thermometers. Specify model and
calibration selection. Order #129003.

When Disposable Covers Are Needed

Tubular Sheaths

Covers entire thermometer
for optimum cross-contam-
ination protection. Fits all
temporal artery thermome-
ters, and the LXN axillary
thermometer. Latex free.
(Box of 250)
Order #129462.

Responsible Caps

Fits all TemporalScanner
thermometers. TAT-5000
series. Latex free.
(Box of 1000 - 20 sleeves of
50 each)
Order #134203.
(Box of 5000 - 20 bags of
250 each)
Order #134205.

Convenience and Security Accessories

Exergen's New Keyless Self Locking Wall Mounts with
Hidden Release, Wall Mounted Cradle, and Roll-a-Bout

134305 Keyless Locking Wall Mount Instrument Holder

ty cable - order #124309
or #124311 (latex free)

Security Cable - Field Attachment

8 ft. Coiled Cable #124309
8 ft. Coiled Cable -
Latex Free
Order #124311

6 ft. vinyl-covered steel,
Order #134302
8 ft. vinyl-covered steel,
Order #134303

(Longer lengths on the vinyl-covered steel cables available)

129455 Roll-A-Bout

5-legged rolling stand comes
complete with double basket
and vinyl covered steel
cable, lock and key.

All models of the Keyless Locking Wall Mount illustrated above
can be used with or without the cables. Security cables are sold separately.

Suggestions for Selection:

- If instruments are to be secured at the nurses station, consider the keyless locking wallmount 134305 or 134306 without a cable.
- If instruments are to be mounted one per bed, or in a dedicated area (triage for example), consider 134201 with the coiled cable 124309 or 124311.
- If instruments are to be attached to an existing rolling stand, or a vital signs monitor, consider the vinyl covered steel cable 134302.
